Subject: ~~HITEC 3000~~ additive

Dear Mr. Reilly

I have been involved with transportation planning and traffic operations for over 40 years. Living in Florida, one of the fastest growing states, the increase in pollutants from vehicular exhaust is a matter of escalating concern.

After reviewing the technical material on the additive referenced. I would like to express my support for the waiver request. It appears this could be a significant tool in the multi-faceted program to control pollution from vehicular emissions.

Very truly yours,

LARSON ENGINEERING, INC.

Sherwood H. Hiller
Director - Transportation Engineering
